

# E-TRASH

Facilitator: Vikram Patel

Have you ever wondered how electronic products are made?  
Have you ever seen what's inside?  
Have you ever taken apart a computer, printer, camera, or hairdryer?

Today we will learn more about electronics by taking apart and breaking various items including: computers, keyboards, cell phone, hair dryer, camera, radio, telephone, VCR's, and more!

**Use safety precautions and have fun!**
