Mr. Don Plumlee
Boise State University
Mechanical Engineering Department

Subject: Refrigeration Engineering- Internship Position DC Engineering

We are currently seeking candidates for a Refrigeration Engineer-Intern working from our Meridian, ID office. This position will afford the candidate an opportunity to work with our design team on commercial refrigeration projects. The internship will start as soon as we can identify a candidate and will run through the end of December, 2017. The position will have flexible hours to accommodate coursework at Boise State, while in session, and will be full time through the summer. We are looking for candidates who will graduate in the fall of 2017 or spring 2018.

Ideally, the candidates experience would include:

- AutoCAD / REVIT / Microsoft Excel, Word and Outlook
- Junior or Senior pursuing a B.S. or M.S. in Mechanical Engineering
- Understanding of basic refrigeration and mechanical design concepts and codes.
- Understanding and applying specific client design requirements and processes.
- An interest in the consulting engineering field and pursuing a PE license
- High level of accuracy and good presentation of drafting and design.
- Work in a team environment which will include several engineers / designers / drafters

Basic expectations/guidelines for employment include:

- Be to work on time
- Meet deadlines as outlined by supervising staff.
- Provide accurate time reporting.
- Keep a professional appearance and have professional mannerisms both with internal team members and external clients.

If you have any interested students please have them submit a cover letter and resume to Ms. Erin Burrow at eburrow@dcengineering.net and reference the Refrigeration Engineer- Intern position.

Respectfully,

Dustin Lilya, PE
DC Engineering, PC
