Attention Engineering Students!
Bridge Intern Opportunity in Boise, Id

HDR is an architectural, engineering and consulting firm that excels at complex projects and solving challenges for clients. We employ more than 8,500 professionals around the world, including architects, engineers, consultants, scientists, planners and construction managers, in over 200 locations worldwide, pool their solutions beyond the scope of traditional A/E/C firms.

We have an opportunity in our Boise office for a Bridge Intern in our Engineering Group. The right candidate will be pursuing a Bachelor’s or Master’s degree in an engineering program, with a preference of three years completed toward the degree.

The candidate will perform assignments under the direct supervision of a Professional Engineer or Project Manager in support of bridge design projects. Duties may include preparing spreadsheets for computations, performing bridge load rating tasks under the direction of an engineer, preparing cost estimates, and assisting in CADD drafting.

This candidate has the opportunity to work up to 24 hours per week. This is a paid internship.

Qualifications:

- Candidate must be enrolled in an undergraduate or graduate engineering program.
- Prefer 3+ years completed toward degree.
- 3.00 GPA or higher preferred.
- Attention to detail, strong problem solving and communication skills is a must.
- Some experience with Microstation or AutoCAD preferred.
- MS Office experience required.
- Preference will be given to local candidates.
